Choose a Domain Name

Please choose a free subdomain to setup your hosting account. You add more domains later, and remove this domain if you want to change it.

Subdomain

Domain Extension

You can add more domains after your account is setup!

Have your own domain? Add it after creating your account, along with additional free subdomain options.

Account if0_42176906 (Website for myshopbooboo.infinityfree.io) is being set up!

We're setting up your account! The username if0_42176906 has been assigned to it. Here are some things you need to know:

- It will take a few minutes for your account to be set up.
- It can take up to 72 hours for the new domain to be visible everywhere, due to DNS caching.
- Please login to the control panel once to enable all features.
- Not sure what to do next? Please see [this guide](#) for some ideas on how to get started.

We're setting up your hosting account!

This will take a few minutes. The page will continue automatically.

How to use MySQL

MySQL is a relational database system. If you want your website to have any kind of interactive functionality, like social functions or shopping features, or just want a way to manage your website's content easily without code, almost all websites use a MySQL database to store the data.

Are you having trouble establishing a database connection? Please see the article [Common MySQL Connection Errors](#) for more information.
